

Product Datasheet **FITC Anti-Mouse CD335 Antibody** [29A1.4] Catalogue Code: AGEL1933

Antibody Data

| Product SKU: | AGEL1933 | Clone: | 29A1.4 |
|---------------|----------|--------|--------|
| Applications: | FCM | | |
| Reactivity: | Mouse | | |

Important Note:

Centrifuge before opening to ensure complete recovery of vial contents.

Product Information:

| Alternate Names: | Ly94;mAR-1;NK-p46;mNKp46;Lymphocyte antigen 94; | | |
|------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------|--|
| Uniprot ID: | Q8C567 | | |
| Background: | CD335, also known as NKp46, is a single-pass type I membrane protein of 46 kD. It belongs to the natural cytotoxicity receptor (NCR) family and contains two Ig-like (immunoglobulin-like) domains. It's expression is restricted to NK cells and a subset of NKT cells; it's not expressed in CD1d-restricted NKT cells. CD335 is a receptor for viral hemagglutinins and heparan sulfate proteoglycans and is involved in NK cell activation. | | |
| Form: | Liquid | FITC Excitation and Emission Spectra | |
| Conjugation: | FITC | 100 - | |
| Size: | 50 Tests, 100 Tests, 200 Tests | | |
| Host Species: | Rat | 60 | |
| Isotype: | Rat IgG2a, к | 20 0 0 0 350 400 450 550 550 600 650 700 Wavelength (nm) Ex:490 nm; Em:530 nm | |

Isotype Control: FITC Rat IgG2a, κ Isotype Control[2A3] [Product AGEL1933]

Storage Buffer: Phosphate buffered solution, pH 7.2, containing 0.09% stabilizer and 1% protein protectant.

Shipping: Biological ice pack at 4°C

- **Stability & Storage:** Keep as concentrated solution. Store at 2~8°C and protected from prolonged exposure to light. Do not freeze. Centrifuge before opening to ensure complete recovery of vial contents. This product is guaranteed up to one year from purchase.
- **Recommended** Usage: Each lot of this antibody is quality control tested by flow cytometric analysis. The amount of the reagent is suggested to be used 5 μ L of antibody per test (million cells in 100 μ L staining volume or per 100 μ L of whole blood). Please check your vial before the experiment. Since applications vary, the appropriate dilutions must be determined for individual use.
