

Product Datasheet FITC Anti-Mouse FcεRlα Antibody [MAR-1] Catalogue Code: ΔCEL 1084

Catalogue Code: AGEL1984

## Antibody Data

Product SKU:	AGEL1984	Clone:	MAR-1	
Applications:	FCM			
Reactivity:	Mouse			

## **Important Note:**

Centrifuge before opening to ensure complete recovery of vial contents.

## **Product Information:**

Alternate Names: Uniprot ID: Background:	tetrameric complex with one β and role in triggering IgE-mediated alle basophils and up-regulated by the cells and basophils release bioact the initiation of allergic reactions. C	epsilon receptor subunit alpha;Fc-epsilon RI- tein belonging to the Ig superfamily. Fc $\epsilon$ RI $\alpha$ forms a d two $\gamma$ -subunits. The Fc $\epsilon$ RI complex plays an important ergic reactions. It is abundantly expressed on mast and presence of IgE. Following stimulation via Fc $\epsilon$ RI $\alpha$ , mast tive chemical mediators such as histamine, resulting in Cross linking of the high-affinity receptor for IgE on tissue hypersensitivity with local symptoms. The MAR-1 he Fc $\epsilon$ RI $\alpha$ subunit.
Form:	Liquid	FITC Excitation and Emission Spectra
Conjugation:	FITC	100
Size:	25µg, 100µg	80 - Se - Ze 60 -
Host Species:	Armenian Hamster	(%) pozitemuov
Isotype:	Armenian Hamster IgG	<sup>2</sup> <sup>350</sup> <sup>400</sup> <sup>450</sup> <sup>500</sup> <sup>550</sup> <sup>550</sup> <sup>500</sup> <sup>550</sup> <sup>500</sup> <sup>550</sup> <sup>500</sup> <sup>550</sup> <sup>500</sup> <sup>550</sup> <sup>500</sup> <sup>550</sup> <sup>500</sup> <sup>550</sup> <sup>500</sup> <sup>550</sup> <sup>500</sup> <sup>550</sup> <sup>700</sup> <sup>700</sup> <sup>700</sup> <sup>700</sup> <sup>700</sup> <sup>700</sup>

Isotype Control: FITC Armenian Hamster IgG Isotype Control[PIP] [Product AGEL1984]

**Storage Buffer:** Phosphate buffered solution, pH 7.2, containing 0.09% stabilizer and 1% protein protectant.

Shipping: Biological ice pack at 4°C

- **Stability & Storage:** Keep as concentrated solution. Store at 2~8°C and protected from prolonged exposure to light. Do not freeze. Centrifuge before opening to ensure complete recovery of vial contents. This product is guaranteed up to one year from purchase.
- RecommendedEach lot of this antibody is quality control tested by flow cytometric analysis. Please check<br/>your vial before the experiment. Since applications vary, the appropriate dilutions must be<br/>determined for individual use. We suggest each investigator should titrate the reagent to<br/>obtain optimal results [The recommended concentration is 0.1-1 μg/106 cells in 100 μL<br/>volume].
