

## CAB20688

---

### Product Information

|                              |                             |                          |
|------------------------------|-----------------------------|--------------------------|
| <b>Product SKU:</b> CAB20688 | <b>Gene ID:</b> -           | <b>Size:</b> 20uL, 100uL |
| <b>Clone No:</b> -           | <b>Host Species:</b> Rabbit | <b>Reactivity:</b> Human |

---

### Additional Information

|                           |                                |
|---------------------------|--------------------------------|
| <b>Observed MW:</b> 51kDa | <b>Conjugate:</b> Unconjugated |
| <b>Calculated MW:</b> -   | <b>Isotype:</b> IgG            |

---

### Immunogen Information

**Background:** Enterovirus A 71 (EV71) is a neurotropic virus that may lead to acute flaccid paralysis, encephalitis, cardiopulmonary failure or even death. No vaccine and defensive drug controlling EV71 is currently available, novel and efficient antiviral drug or vaccine is therefore urgently needed. 3Dpol (RNA-dependent RNA polymerase (RdRp)) has been an important target for anti-EV71 drug development.

**Recommended Dilution:** WB, 1:500 - 1:1000

**Synonyms:** -

**Purification Method:** Affinity purification

**Immunogen:** Recombinant protein of Enterovirus EV71 3D

**Storage:** Store at -20°C. Avoid freeze / thaw cycles. Buffer: PBS with 0.01% thimerosal, 50% glycerol, pH 7.3.
