## CAB21756

## **Product Information**

| Product SKU:           | CAB21756 | Gene ID:      | 57521  | Size:               | 20uL, 100uL       |  |
|------------------------|----------|---------------|--------|---------------------|-------------------|--|
| Clone No:              | -        | Host Species: | Rabbit | <b>Reactivity</b> : | Human, Mouse, Rat |  |
|                        |          |               |        |                     |                   |  |
| Additional Information |          |               |        |                     |                   |  |

## Observed MW:150kDaConjugate:UnconjugatedCalculated MW:149kDaIsotype:IgG

## **Immunogen Information**

| Background:           | This gene encodes a component of a signaling pathway that regulates cell growth in response to nutrient<br>and insulin levels. The encoded protein forms a stoichiometric complex with the mTOR kinase, and also<br>associates with eukaryotic initiation factor 4E-binding protein-1 and ribosomal protein S6 kinase. The<br>protein positively regulates the downstream effector ribosomal protein S6 kinase, and negatively<br>regulates the mTOR kinase. Multiple transcript variants encoding different isoforms have been found for<br>this gene. |
|-----------------------|---|
| Recommended Dilution: | WB,1:500 - 1:2000   |
| Synonyms:             | KOG1; Mip1; Raptor  |
| Purifcation Method:   | Affinity purification   |
| Immunogen:            | Recombinant fusion protein containing a sequence corresponding to amino acids 888-1013 of human Raptor (NP_065812.1).   |
| Storage:              | Store at -20°C. Avoid freeze / thaw cycles.Buffer: PBS with 0.05% proclin300,50% glycerol,pH7.3.  |
