MIF Polyclonal Antibody

Product Information

Product SKU: CAB22014 **Gene ID**: 4282 **Size**: 20uL, 100uL

Clone No: - Host Species: Rabbit Reactivity: Human, Mouse, Rat

Additional Information

Observed MW: 12kDa/ **Conjugate:** Unconjugated

Calculated MW: 12kDa Isotype: IgG

Immunogen Information

Background: This gene encodes a lymphokine involved in cell-mediated immunity, immunoregulation, and

inflammation. It plays a role in the regulation of macrophage function in host defense through the suppression of anti-inflammatory effects of glucocorticoids. This lymphokine and the JAB1 protein form

a complex in the cytosol near the peripheral plasma membrane, which may indicate an additional role

in integrin signaling pathways.

Recommended Dilution: WB,1:100 - 1:500

Synonyms: GIF; GLIF; MMIF; IF

Purifcation Method: Affinity purification

Immunogen: Recombinant fusion protein containing a sequence corresponding to amino acids 2-115 of human MIF

(NP_002406.1).

Storage: Store at -20°C. Avoid freeze / thaw cycles.Buffer: PBS with 0.05% proclin300,50% glycerol,pH7.3.
