Activator protein 2 (AP-2/TFAP2A) Rabbit Monoclonal Antibody

CAB2294

Product Information

Product SKU: CAB2294 **Gene ID**: 7020 **Size**: 20uL, 100uL

Clone No: ARC1905 Host Species: Rabbit Reactivity: Human, Mouse

Additional Information

Observed MW: 48kDa **Conjugate:** Unconjugated

Calculated MW: 48kDa Isotype: IgG

Immunogen Information

Background: The protein encoded by this gene is a transcription factor that binds the consensus sequence 5'-

GCCNNNGGC-3'. The encoded protein functions as either a homodimer or as a heterodimer with similar family members. This protein activates the transcription of some genes while inhibiting the transcription of others. Defects in this gene are a cause of branchiooculofacial syndrome (BOFS). Three transcript

variants encoding different isoforms have been found for this gene.

Recommended Dilution: WB,1:500 - 1:2000

Synonyms: AP-2; BOFS; AP2TF; TFAP2; AP-2alpha; Activator protein 2 (AP-2/TFAP2A)

Purifcation Method: Affinity purification

Immunogen: A synthetic peptide corresponding to a sequence within amino acids 50-150 of human Activator protein

2 (AP-2/TFAP2A) (P05549).

Storage: Store at -20°C. Avoid freeze / thaw cycles.Buffer: PBS with 0.02% sodium azide,0.05% BSA,50%

glycerol,pH7.3.
