HRP-conjugated β-Actin Mouse Monoclonal Antibody

CABC043

Product Information

Product SKU: CABC043 **Gene ID**: 60 **Size**: 20uL, 100uL

Clone No: AMC0001 Host Species: Mouse Reactivity: Human, Mouse, Rat

Additional Information

Observed MW: 42kDa Conjugate: HRP

Calculated MW: 42kDa Isotype: IgG1,Lambda

Immunogen Information

Background: This gene encodes one of six different actin proteins. Actins are highly conserved proteins that are

involved in cell motility, structure, integrity, and intercellular signaling. The encoded protein is a major constituent of the contractile apparatus and one of the two nonmuscle cytoskeletal actins that are

ubiquitously expressed. Mutations in this gene cause Baraitser-Winter syndrome 1, which is characterized by intellectual disability with a distinctive facial appearance in human patients. Numerous

pseudogenes of this gene have been identified throughout the human genome.

Recommended Dilution: WB,1:2000 - 1:50000

Synonyms: BRWS1; PS1TP5BP1; HRP-conjugated β-Actin

Purifcation Method: Affinity purification

Immunogen: Recombinant protein of Mouse HRP-conjugated β-Actin

Storage: Store at -20°C. Avoid freeze / thaw cycles.Buffer: PBS with 0.01% thimerosal,50% glycerol,pH7.3.
