

Dengue Control Antibody

CPAB0398

Product Information

Size:

100µg

Applications:

Reactivity:

Viral

Source:

Isotype:

Purification Method:

Purified monoclonal IgG by protein A chromatography.

Protein Background:

Monoclonal Mouse Anti Dengue Control for Lateral Flow Test. Used to prepare a control line for dengue IgG/IgM rapid test, coating concentration is 0.4-0.5mg/ml, 1µl/cm.

Synonyms:

Immunogen:

Storage:
