PRL Antibody

PACO14916

Reactivity:

Product Information

Size: Protein Background:

50ul This gene encodes the anterior pituitary hormone prolactin. This secreted hormone is a

growth regulator for many tissues, including cells of the immune system. It may also play a role in cell survival by suppressing apoptosis, and it is essential for lactation.

Human Alternative splicing results in multiple transcript variants that encode the same protein.

Source: Gene ID:

Rabbit PRL

Isotype: Uniprot

IgG P01236

Applications: Synonyms:

ELISA, IHC prolactin

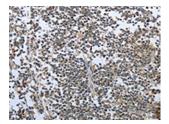

Recommended dilutions: Immunogen:

ELISA:1:1000-1:5000, IHC:1:25-1:100 Fusion protein of human PRL.

Storage:

-20° C, pH7.4 PBS, 0.05% NaN3, 40% Glycerol
