SCTR Antibody

AssayGenie

PACO18884

Reactivity:

Isotype:

Applications:

lgG

Product Information

Size: **Protein Background:**

50ul Single stranded DNA-dependent ATP-dependent helicase. Has a role in chromosome translocation. The DNA helicase II complex binds preferentially to fork-like ends of

double-stranded DNA in a cell cycle-dependent manner. It works in the 3'-5' direction.

Binding to DNA may be mediated by XRCC6. Involved in DNA non-homologous end Human

joining (NHEJ) required for double-strand break repair and V(D)J recombination. The Source: XRCC5/6 dimer acts as regulatory subunit of the DNA-dependent protein kinase

complex DNA-PK by increasing the affinity of the catalytic subunit PRKDC to DNA by Rabbit

100-fold. The XRCC5/6 dimer is probably involved in stabilizing broken DNA ends and

bringing them together. The assembly of the DNA-PK complex to DNA ends is required

for the NHEJ ligation step. Required for osteocalcin gene expression. Probably also acts

as a 5'-deoxyribose-5-phosphate lyase (5'-dRP lyase), by catalyzing the beta-

elimination of the 5' deoxyribose-5-phosphate at an abasic site near double-strand

breaks.

ELISA, WB, IHC Gene ID:

Recommended dilutions: SCTR

ELISA:1:2000-1:10000, WB:1:1000-1:5000,

IHC:1:50-1:200

Uniprot

P47872

Synonyms:

secretin receptor

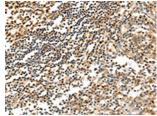

Immunogen:

Synthetic peptide of human SCTR.

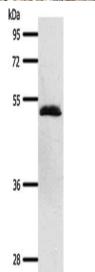

Storage:

-20° C, pH7.4 PBS, 0.05% NaN3, 40% Glycerol

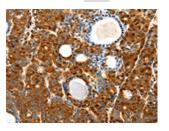

Product Images

The image on the left is immunohistochemistry of paraffin-embedded Human tonsil tissue using PACO18884(SCTR Antibody) at dilution 1/40, on the right is treated with synthetic peptide. (Original magnification: x—200).

Gel: 10%SDS-PAGE, Lysate: 40 μ g, Lane: Human liver cancer tissue, Primary antibody: PACO18884(SCTR Antibody) at dilution 1/600, Secondary antibody: Goat anti rabbit IgG at 1/8000 dilution, Exposure time: 20 seconds.

The image on the left is immunohistochemistry of paraffin-embedded Human thyroid cancer tissue using PACO18884(SCTR Antibody) at dilution 1/40, on the right is treated with synthetic peptide. (Original magnification: x—200).
