HMGCS1 Antibody

PACO19764

Product Information

Size: Protein Background:

50ul Probable core component of the endosomal sorting required for transport complex III

(ESCRT-III) which is involved in multivesicular bodies (MVBs) formation and sorting of

Reactivity:endosomal cargo proteins into MVBs. MVBs contain intraluminal vesicles (ILVs) that are
generated by invagination and scission from the limiting membrane of the endosome

and mostly are delivered to lysosomes enabling degradation of membrane proteins,

Source:

Source: Such as stimulated growth factor recentors, lysosomal enzymes and lipids. The MVR

ource: such as stimulated growth factor receptors, lysosomal enzymes and lipids. The MVB

Rabbit pathway appears to require the sequential function of ESCRT-O, -I, -II and -III complexes. ESCRT-III proteins mostly dissociate from the invaginating membrane

Isotype: before the ILV is released. The ESCRT machinery also functions in topologically

equivalent membrane fission events, such as the terminal stages of cytokinesis and the

budding of enveloped viruses (HIV-1 and other lentiviruses).

Applications: Gene ID:

ELISA, WB, IHC HMGCS1

Recommended dilutions: Uniprot

ELISA:1:2000-1:5000, WB:1:500-1:2000, Q01581

IHC:1:50-1:200

lgG

Synonyms:

3-hydroxy-3-methylglutaryl-CoA synthase 1 (soluble)

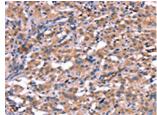

Immunogen:

Synthetic peptide of human HMGCS1.

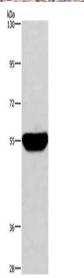

Storage:

-20° C, pH7.4 PBS, 0.05% NaN3, 40% Glycerol

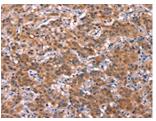

Product Images

The image on the left is immunohistochemistry of paraffin-embedded Human thyroid cancer tissue using PACO19764(HMGCS1 Antibody) at dilution 1/40, on the right is treated with synthetic peptide. (Original magnification: x—200).

Gel: 6%SDS-PAGE, Lysate: 40 μ g, Lane: Human fetal liver tissue, Primary antibody: PACO19764(HMGCS1 Antibody) at dilution 1/300, Secondary antibody: Goat anti rabbit IgG at 1/8000 dilution, Exposure time: 30 seconds.

The image on the left is immunohistochemistry of paraffin-embedded Human gastic cancer tissue using PACO19764(HMGCS1 Antibody) at dilution 1/40, on the right is treated with synthetic peptide. (Original magnification: x—200).
