

# RFK Antibody, Biotin conjugated

PACO38397

---

## Product Information

**Size:**

50ug

**Reactivity:**

Human

**Source:**

Rabbit

**Isotype:**

IgG

**Applications:**

ELISA

**Recommended dilutions:****Protein Background:**

Catalyzes the phosphorylation of riboflavin (vitamin B2) to form flavin-mononucleotide (FMN), hence rate-limiting enzyme in the synthesis of FAD. Essential for TNF-induced reactive oxygen species (ROS) production. Through its interaction with both TNFRSF1A and CYBA, physically and functionally couples TNFRSF1A to NADPH oxidase. TNF-activation of RFK may enhance the incorporation of FAD in NADPH oxidase, a critical step for the assembly and activation of NADPH oxidase.

**Gene ID:**

RFK

**Uniprot**

Q969G6

**Synonyms:**

Riboflavin kinase (EC 2.7.1.26) (ATP: riboflavin 5'-phosphotransferase) (Flavokinase), RFK

**Immunogen:**

Recombinant Human Riboflavin kinase protein (1-154AA).

**Storage:**

Preservative: 0.03% Proclin 300. Constituents: 50% Glycerol, 0.01M PBS, PH 7.4
