TIFA Antibody, Biotin conjugated

PACO38709

Reactivity:

Product Information

Size: Protein Background:

50ug Adapter protein which mediates the IRAK1 and TRAF6 interaction following IL-1

stimulation, resulting in the downstream activation of NF-kappa-B and AP-1 pathways. Induces the oligomerization and polyubiquitination of TRAF6, which leads to the

induces the original relation and polyabiquitination of the o, which leads to

Human activation of TAK1 and IKK through a proteasome-independent mechanism.

Source: Gene ID:

Rabbit TIFA

Isotype: Uniprot

IgG Q96CG3

Applications: Synonyms:

ELISA TRAF-interacting protein with FHA domain-containing protein A (Putative MAPK-

activating protein PM14) (Putative NF-kappa-B-activating protein 20) (TRAF2-binding

Recommended dilutions: protein), TIFA, T2BP

Immunogen:

Recombinant Human TRAF-interacting protein with FHA domain-containing protein A

protein (1-184AA).

Storage:

Preservative: 0.03% Proclin 300. Constituents: 50% Glycerol, 0.01M PBS, PH 7.4
