GNAL Antibody, HRP conjugated

PACO58774

Reactivity:

Human

Product Information

Size: Protein Background:

50ug Guanine nucleotide-binding proteins (G proteins) are involved as modulators or transducers in various transmembrane signaling systems. G(olf) alpha mediates signal

transduction within the olfactory neuroepithelium and the basal ganglia. May be involved in some aspect of visual transduction, and in mediating the effect of one or

involved in some aspect of visual transduction, and in mediating the en

more hormones/neurotransmitters. Source:

Gene ID:

Rabbit GNAL

Isotype: Uniprot

IgG P38405

Applications: Synonyms:

ELISA

Guanine nucleotide-binding protein G(olf) subunit alpha (Adenylate cyclase-stimulating

Recommended dilutions: G alpha protein, olfactory type), GNAL

Immunogen:

Recombinant Human Guanine nucleotide-binding protein G(olf) subunit α

protein (4-116AA).

Storage:

Preservative: 0.03% Proclin 300. Constituents: 50% Glycerol, 0.01M PBS, pH 7.4
