Nanodisc Human OR3A1 Protein

HDFP147

Product Information

Product SKU:	HDFP147	Expression H	lost: HEK293	Size:	10µg		
Target:	OR3A1	Tag:	C-Flag Tag				
Additional Infor	mation						
Conjugate :	Uncon	ugated	Uniprot ID: P	47881			
Molecular Wei	ht: The human full length OR3A1 protein has a MW of 34.6 kDa						
Protein Informa	tion						
Background:	Olfactory receptors interact with odorant molecules in the nose, to initiate a neuronal						
	resp	response that triggers the perception of a smell. The olfactory receptor proteins are					
	mer	members of a large family of G-protein-coupled receptors (GPCR) arising from single					
	cod	coding-exon genes. Olfactory receptors share a 7-transmembrane domain structure					

Background :	Background: Olfactory receptors interact with odorant molecules in the nose, to initiate a neuro		
	response that triggers the perception of a smell. The olfactory receptor proteins are		
	members of a large family of G-protein-coupled receptors (GPCR) arising from single		
	coding-exon genes. Olfactory receptors share a 7-transmembrane domain structure		
	with many neurotransmitter and hormone receptors and are responsible for the		
	recognition and G protein-mediated transduction of odorant signals. The olfactory		
	receptor gene family is the largest in the genome. The nomenclature assigned to the		
	olfactory receptor genes and proteins for this organism is independent of other		
	organisms.		
Synonyms:	OLFRA03; OR17-40; OR17-82; OR40		
Protein Description:	Human OR3A1 full length protein-synthetic nanodisc		
Formulation:	Lyophilized from nanodisc solubilization buffer (20 mM Tris-HCl, 150 mM NaCl, pH		
	8.0). Normally 5% – 8% trehalose is added as protectants before lyophilization. Please		
	see Certificate of Analysis for specific instructions. Do not use solvents with a pH		
	below 6.5 or those containing high concentrations of divalent metal ions (greater		
	than 5 mM) in subsequent experiments.		
Protein Pathways:	Olfactory transduction.		
Protein Families:	Druggable Genome, Transmembrane.		
Usage:	Research use only		

Storage & Shipping: Store at -20°C to -80°C for 12 months in lyophilized form. After reconstitution, if not intended for use within a month, aliquot and store at -80°C (Avoid repeated freezing and thawing). Lyophilized proteins are shipped at ambient temperature.
