Nanodisc Human CELR2 Protein

HDFP213

Product Information

Product SKU: HDFP213 Expression Host: HEK293 Size: 10μg

Target: CELR2 **Tag**: C-Flag Tag

Additional Information

Conjugate: Unconjugated **Uniprot ID**: Q9HCU4

Molecular Weight: The human full length CELR2 protein has a MW of 317.5kDa

Protein Information

Background: The protein encoded by this gene is a member of the flamingo subfamily, part of the

cadherin superfamily. The flamingo subfamily consists of nonclassic-type cadherins;

a subpopulation that does not interact with catenins. The flamingo cadherins are

located at the plasma membrane and have nine cadherin domains, seven epidermal

growth factor-like repeats and two laminin A G-type repeats in their ectodomain.

They also have seven transmembrane domains, a characteristic unique to this

subfamily. It is postulated that these proteins are receptors involved in contact-

mediated communication, with cadherin domains acting as homophilic binding

regions and the EGF-like domains involved in cell adhesion and receptor-ligand

interactions. The specific function of this particular member has not been determined.

[provided by RefSeq, Jul 2008]

Synonyms: ADGRC2, CDHF10, EGFL2, Flamingo1, MEGF3

Protein Description: Human CELR2 full length protein-synthetic nanodisc

Formulation: Lyophilized from nanodisc solubilization buffer (20 mM Tris-HCl, 150 mM NaCl, pH

8.0). Normally 5% – 8% trehalose is added as protectants before lyophilization. Please

see Certificate of Analysis for specific instructions. Do not use solvents with a pH

below 6.5 or those containing high concentrations of divalent metal ions (greater

than 5 mM) in subsequent experiments.

Protein Pathways: GPCRDB Other.

Protein Families: Transmembrane, Druggable Genome.

Usage: Research use only

Storage & Shipping: Store at -20°C to -80°C for 12 months in lyophilized form. After reconstitution, if not

intended for use within a month, aliquot and store at -80°C (Avoid repeated freezing

and thawing). Lyophilized proteins are shipped at ambient temperature.
