Biotinylated Recombinant Human Oncostatin- M/OSM Protein

RPCB0062

Product Information

Product SKU: RPCB0062 **Gene ID**: 5008 **Size**: 100μg

Tag: C-His&Avi Reactivity: Human

Additional Information

Expression Host: - **Swissprot**: P13725

Purity: > 95% by Tris-Bis PAGE;> 95% by SEC-HPLC

Protein Information

Background: OSM is a pleiotropic cytokine that initiates its biological activities by binding to

specific cell surface receptors. Inhibits the proliferation of a number of tumor cell

lines. Stimulates proliferation of AIDS-KS cells. It regulates cytokine production,

including IL-6, G-CSF and GM-CSF from endothelial cells. Uses both type I OSM

receptor (heterodimers composed of LIFR and IL6ST) and type II OSM receptor

(heterodimers composed of OSMR and IL6ST). Involved in the maturation of fetal

hepatocytes, thereby promoting liver development and regeneration.

Protein Description: High quality, high purity and low endotoxin recombinant Biotinylated Recombinant

Human Oncostatin-M/OSM Protein , tested reactivity in HEK293 cells and has been

validated in SDS-PAGE.100% guaranteed.

Endotoxin: $< 1 \text{ EU/}\mu\text{g}$ of the protein by LAL method.

Formulation: Lyophilized from a 0.22 µm filtered solution of PBS, pH 7.4.

Storage: Store at -20°C. Store the lyophilized protein at -20°C to -80°C up to 1 year from the

date of receipt.After reconstitution, the protein solution is stable at -20°C for 3

months, at 2-8°C for up to 1 week.
