

FITC-Labeled Recombinant Human ERBB1/HER1/EGFR (25-378) Protein RPCB0578

Product Information

Product SKU:	RPCB0578	Gene ID:	1956	Size:	100µg
Tag:	C-His&Avi	Reactivity:	Human		

Additional Information

Expression Host:	-	Swissprot:	NP_001333870.1
Purity:	> 95% by SDS-PAGE		

Protein Information

Background: The epidermal growth factor receptor (EGFR) is overexpressed in a variety of human epithelial tumors, often as a consequence of gene amplification. Tumors with EGFR gene amplification frequently contain EGFR gene rearrangements, with the most common extracellular domain mutation being EGFRVIII. This mutation leads to a deletion of exons 2-7 of the EGFR gene and renders the mutant receptor incapable of binding any known ligand.

Protein Description: High quality, high purity and low endotoxin recombinant FITC-Labeled Recombinant Human HER1/ERBB1/EGFR (25-378) Protein, tested reactivity in HEK293 cells and has been validated in SDS-PAGE. 100% guaranteed.

Endotoxin: < 1 EU/µg of the protein by LAL method

Formulation: Supplied as 0.22 µm filtered solution in PBS (pH 7.4).

Storage: Store at -70°C. This product is stable at ≤ -70°C for up to 1 year from the date of receipt. For optimal storage, aliquot into smaller quantities after centrifugation and store at recommended temperature. Avoid repeated freeze-thaw cycles.
