

FITC-Labeled Recombinant Human B7-H3 (4Ig)/B7-H3b/CD276 Protein

RPCB0625

Product Information

Product SKU: RPCB0625 **Gene ID:** 80381 **Size:** 100µg
Tag: C-hFc **Reactivity:** Human

Additional Information

Expression Host: - **Swissprot:** Q5ZPR3-1
Purity: > 95% by SDS-PAGE ; > 95% by HPLC

Protein Information

Background: B7-H3, a member of the B7 family of immunomodulatory molecules, is overexpressed in a wide range of solid cancers. B7-H3 binds to activated T cells via an as yet unidentified receptor. In assays using sub-optimal amount so anti-CD3 stimulation, 2Ig?B7?H3 enhances T cell proliferation, T cell interferon-gamma (IFN-gamma) production, and cytotoxic T cells induction.

Protein Description: High quality, high purity and low endotoxin recombinant FITC-Labeled Recombinant Human B7-H3 (4Ig)/B7-H3b/CD276 Protein , tested reactivity in HEK293 cells and has been validated in SDS-PAGE. 100% guaranteed.

Endotoxin: < 1 EU/µg of the protein by LAL method

Formulation: Lyophilized from 0.22 µm filtered solution in PBS (pH 7.4). Normally 8% trehalose is added as protectant before lyophilization.

Storage: Store at -20°C. Store the lyophilized protein at -20°C to -80 °C up to 1 year from the date of receipt. After reconstitution, the protein solution is stable at -20°C for 3 months, at 2-8°C for up to 1 week.
