

RPCB1268

Product Information

Product SKU:	RPCB1268	Gene ID:	20299	Size:	10µg
Tag:	C-His	Reactivity:	Mouse		

Additional Information

Expression Host:	-	Swissprot:	O88430
Purity:	PBS, 0.2 M Arginine, pH7.4.		

Protein Information

Background: CCL22 may play a role in the trafficking of activated/effector T-lymphocytes to inflammatory sites and other aspects of activated T-lymphocyte physiology. Also, it is a chemotactic for monocytes, dendritic cells and natural killer cells. CCL22 is a mild chemoattractant for primary activated T-lymphocytes and a potent chemoattractant for chronically activated T-lymphocytes but has no chemattractant activity for neutrophils, eosinophils, and resting T-lymphocytes.

Protein Description: High quality, high purity and low endotoxin recombinant Recombinant Mouse CCL22/MDC Protein, tested reactivity in Pichia and has been validated in SDS-PAGE. 100% guaranteed.

Endotoxin: <1EU/µg

Formulation: Lyophilized from 0.22 µm filtered solution in PBS, 0.2 M Arginine, pH7.4. Normally 8% trehalose is added as protectant before lyophilization.

Storage: Store at -20°C. Store the lyophilized protein at -20°C to -80 °C up to 1 year from the date of receipt. After reconstitution, the protein solution is stable at -20°C for 3 months, at 2-8°C for up to 1 week.
