

RPCB1640

Product Information

Product SKU: RPCB1640 **Gene ID:** 66715254 **Size:** 10µg
Tag: No tag **Reactivity:** Serratia marcescens

Additional Information

Expression Host: - **Swissprot:** P13717
Purity: > 95% by SDS-PAGE.

Protein Information

Background: Catalyzes the hydrolysis of both DNA and RNA, double- or single-stranded, at the 3' position of the phosphodiester bond to produce 5'-phosphorylated mono-, di-, tri- and tetranucleotides. DNA is a slightly better substrate than RNA.

Protein Description: High quality, high purity and low endotoxin recombinant Recombinant Serratia marcescens Nuclease Protein, tested reactivity in Pichia and has been validated in SDS-PAGE. 100% guaranteed.

Endotoxin: <0.1EU/µg

Formulation: Supplied as a 0.22 µm filtered solution in PBS, pH 7.4.

Storage: Store at -20°C. Store the lyophilized protein at -20°C to -80 °C up to 1 year from the date of receipt. After reconstitution, the protein solution is stable at -20°C for 3 months, at 2-8°C for up to 1 week.
