

RPCB1832

Product Information

| | | | | | |
|---------------------|----------|--------------------|-------|--------------|------|
| Product SKU: | RPCB1832 | Gene ID: | 76905 | Size: | 10µg |
| Tag: | C-His | Reactivity: | Mouse | | |

Additional Information

| | | | |
|-------------------------|-----------------------------|-------------------|--------|
| Expression Host: | HEK293 cells | Swissprot: | Q91XL1 |
| Purity: | > 95% as determined by HPLC | | |

Protein Information

Background: Diabetic nephropathy (DN) is an important public health concern of increasing proportions and the leading cause of end-stage renal disease (ESRD) in diabetic patients. It is one of the most common long-term microvascular complications of diabetes mellitus that is characterized by proteinuria and glomerular structural changes. LRG1 is a novel pro-angiogenic factors involved in the abnormal angiogenesis and renal fibrosis in DN.

Protein Description: High quality, high purity and low endotoxin recombinant Recombinant Mouse LRG1 Protein , tested reactivity in HEK293 cells and has been validated in SDS-PAGE.100% guaranteed.

Endotoxin: <0.1EU/µg

Formulation: Lyophilized from 0.22µm filtered solution in PBS (pH 7.4). Normally 8% trehalose is added as protectant before lyophilization.

Storage: Store at -20°C.Store the lyophilized protein at -20°C to -80 °C up to 1 year from the date of receipt.After reconstitution, the protein solution is stable at -20°C for 3 months, at 2-8°C for up to 1 week.
