

Recombinant Mouse TNFSF6/FAS ligand/CD178 Protein

RPCB2116

Product Information

Product SKU: RPCB2116 **Gene ID:** 14103 **Size:** 10µg
Tag: N-His **Reactivity:** Mouse

Additional Information

Expression Host: Yeast **Swissprot:** P41047
Purity: Please contact us for more information.

Protein Information

Background: Fas Ligand, also known as FASLG and CD95L, is the ligand for FAS. It is a transmembrane protein which binds to TNFRSF6/FAS. Interaction of FAS with Fas Ligand is critical in triggering apoptosis of some types of cells such as lymphocytes. Fas Ligand may be involved in cytotoxic T-cell mediated apoptosis and in T-cell development. TNFRSF6/FAS-mediated apoptosis may have a role in the induction of peripheral tolerance, in the antigen-stimulated suicide of mature T-cells, or both.

Protein Description: High quality, high purity and low endotoxin recombinant Recombinant Mouse TNFSF6/FAS ligand/CD178 Protein, tested reactivity in Yeast and has been validated in SDS-PAGE. 100% guaranteed.

Endotoxin: <1EU/µg

Formulation: Lyophilized from a 0.22 µm filtered solution of PBS, pH 7.4.

Storage: Store at -20°C. Store the lyophilized protein at -20°C to -80 °C up to 1 year from the date of receipt. After reconstitution, the protein solution is stable at -20°C for 3 months, at 2-8°C for up to 1 week.
