Product Informa	ation					
Product SKU:	RPCB2191	Gene ID:	16847	Size:	10µg	
Tag:	C-His	Reactivity :	Mouse			
Additional Infor	mation					
Expression Hos	st: HEK293 ce	ells	Swissprot:	P48356		
Purity:	> 90% by	> 90% by SDS-PAGE.				
Background:	membe	ers possess broad	d mitogenic a	and cell survival a	ctor (FGF) family. F ctivities and are inv creted endocrine f	olved in a
Background:	This pr membe variety functio	ers possess broad of biological pr	d mitogenic a rocesses. This netabolic reg	and cell survival ad s protein is a sec	ctivities and are inv	olved in a actor that
Background: Protein Descrip	This pr membe variety functio glucose otion: High qu recepto	ers possess broad of biological pr ns as a major n e in adipose tissud uality, high purity pr/LEP-R/CD295	d mitogenic a rocesses. This netabolic reg e. and low end Protein , tes	and cell survival a s protein is a sec gulator. The prote otoxin recombinar ted reactivity in	ctivities and are inv	olved in a actor that uptake of use Leptin
Protein Descri	This pr membe variety functio glucose ption: High qu recepto validate	ers possess broad of biological pr ns as a major n e in adipose tissu uality, high purity pr/LEP-R/CD295 ed in SDS-PAGE.1	d mitogenic a rocesses. This netabolic reg e. and low end Protein , tes	and cell survival a s protein is a sec gulator. The prote otoxin recombinar ted reactivity in	ctivities and are inv creted endocrine f ein stimulates the nt Recombinant Mo	olved in a actor that uptake of use Leptin
Protein Descriț Endotoxin:	This pr membe variety functio glucose otion: High qu recepto validate <1EU/µ	ers possess broad of biological pr ns as a major n e in adipose tissue uality, high purity pr/LEP-R/CD295 ed in SDS-PAGE.1	d mitogenic a rocesses. This netabolic reg e. and low end Protein , tes 00% guarant	and cell survival a s protein is a sec gulator. The prote otoxin recombinar ted reactivity in eed.	ctivities and are inv creted endocrine f ein stimulates the nt Recombinant Mo HEK293 cells and	olved in a actor that uptake of use Leptin
Protein Descrip Endotoxin: Formulation:	This pr membe variety functio glucose otion: High qu recepto validate <1EU/µ Lyophil	ers possess broad of biological pr ns as a major n e in adipose tissue uality, high purity or/LEP-R/CD295 ed in SDS-PAGE.1 ug lized from a 0.22	d mitogenic a rocesses. This netabolic reg e. ² and low end Protein , tes 00% guarant μm filtered so	and cell survival and s protein is a sec gulator. The prote otoxin recombinant ted reactivity in eed.	ctivities and are inv creted endocrine f ein stimulates the nt Recombinant Mo HEK293 cells and 7.4.	olved in a actor that uptake of use Leptin has been
Protein Descriț Endotoxin:	This pr membe variety functio glucose otion: High qu recepto validate <1EU/µ Lyophil Store a	ers possess broad of biological pr ns as a major n e in adipose tissue uality, high purity or/LEP-R/CD295 ed in SDS-PAGE.1 ug lized from a 0.22 it -20°C.Store the	d mitogenic a rocesses. This netabolic reg e. ¹ and low end Protein , tes 00% guarant μm filtered so lyophilized p	and cell survival ad s protein is a sec gulator. The prote otoxin recombinan ted reactivity in eed. plution of PBS, pH protein at -20°C to	ctivities and are inv creted endocrine f ein stimulates the nt Recombinant Mo HEK293 cells and	olved in a actor that uptake of use Leptin has been
